#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REID:

S. 1418. A bill to amend title II of the Social Security Act to allow workers who attain age 65 after 1981 and before 1992 to choose either lump sum payments over four years totaling \$5,000 or an improved benefit computation formula under a new 10-year rule governing the transition to the changes in benefits computation rules enacted in the Social Security Amendments of 1977, and for other purposes; to the Committee on Finance.

Mr. REID. Mr. President, I believe Social Security is one of the greatest success stories of our government.

Social Security is the only program in the history of our Nation that has

provided dignity and respect for our senior citizens, regardless of their income or backgrounds.

For almost 70 years, Social Security has been there for our citizens when they need it. It has provided seniors with independence and economic security in their retirement years.

In addition to helping millions of senior citizens, Social Security has provided economic security for surviving spouses and children and to countless Americans with disabilities.

It is easy to see why people believe Social Security is the most successful social program our country has ever adopted.

I rise today to reintroduce legislation that would correct a problem that plagues a special population of Social Security recipients. I am speaking on behalf of those affected by Social Security notch.

The Social Security notch causes more than nine million Social Security recipients born between the years of 1917 and 1926 to receive fewer Social Security benefits than Americans born outside the notch years due to changes made in 1977 to the Social Security benefit formula.

I have continued to speak out on this issue and the injustice it imposes on millions of seniors. The notch issue has been discussed, studied and reviewed, yet to date, Congress has not corrected this wrong. Because of this, many older Americans born during this period cannot afford the most basic necessities.

Congress must accept responsibility for any error that was made. We should not ask notch Seniors to accept less because of our mistake. While we must preserve and protect Social Security for future generations, we have an obligation to those, who through no fault of their own, receive less than those that were fortunate enough to be born just days before and after the notch period.

The notch situation has its origins in 1972, when Congress decided to create automatic cost-of-living-adjustments to help Social Security keep pace with inflation. Prior to 1972, each adjustment had to await legislation, causing beneficiaries' monthly payments to lag behind inflation. When Congress took this action, it was acting under the best of intentions.

Unfortunately, this new benefit adjustment method was flawed. To function properly, it required that the economy behave in much the same fashion that it had in the 1950s and 1960s, with annual wage increases outpacing prices, and inflation remaining relatively low. As we all know, that did not happen. The rapid inflation and high unemployment of the 1970s generated rapid increases in benefits.

In 1977, Congress revised the way that benefits were computed. In making its revisions, Congress decided that it was not proper to reduce benefits for persons already receiving them. It did, however, decide that benefits for all future retirees should be reduced.
